

SILAS DA SILVA GONÇALVES

Rio Branco - Brazil (Open to Relocation) | +55 (68) 99969-9243 | silasgoncalvescs@gmail.com | [Portfolio](#)

SUMMARY

Systems Analyst and DevOps Specialist with 10+ years of experience bridging the gap between Backend Development (Node.js/TypeScript) and IT Infrastructure. Expert in orchestrating scalable environments using Docker and Kubernetes, with a strong focus on automation, clean code, and security. Proven track record of doubling infrastructure efficiency and drastically reducing security vulnerabilities through robust network architectures. Open to global remote opportunities and relocation.

SKILLS

- **Programming & Development:** Node.js, JavaScript, TypeScript, Shell Scripting, Web Development (Full Stack focus), Microservices, Web Services, System Design, CI/CD.
- **Cloud & Virtualization:** Docker, Kubernetes, OpenStack, AWS, NAS.
- **Operating Systems:** Windows Server, Linux.
- **Databases:** SQL, NoSQL, MongoDB.
- **Data & Analytics:** Data Analysis, Data Science, Data Visualization, Microsoft Power BI.
- **Networking & Security:** Network Engineering, Firewalls, Cybersecurity.
- **Methodologies:** DevOps, Scrum.

PROFESSIONAL EXPERIENCE

Sesc Acre (SESC DR/AC) | Feb 2026 – Present - *Systems Analyst*

- Develop, implement, and support information systems, aligning technological solutions with strategic business needs.
- Conduct comprehensive requirements analysis and manage IT environments to ensure optimal system performance and reliability.
- Create detailed technical documentation and deliver user training to facilitate seamless technology adoption across the organization.
- Contribute to project coordination and continuous process improvement initiatives, driving operational efficiency.

Escola Técnica de Saúde Maria Moreira da Rocha - ETSMMR | Feb 2025 - Feb 2026 - *Systems Analyst*

- Managed network environments, including firewalls and Linux servers, enhancing cybersecurity posture and data integrity. Reducing security incidents by 80%.
- Optimized infrastructure performance Kubernetes by leveraging virtualization, Docker, and NAS management, leading to 90% efficiency gains.
- Spearheaded the implementation of DevOps practices and integrated cybersecurity solutions into CI/CD pipelines, improving deployment frequency and security.
- Designed and implemented secure network architecture, improving system performance by 80% and strengthening institutional security.

Verde Vida Fórmulas Médicas LTDA | Nov 2020 - Present - *Lead Systems Engineer & DevOps Specialist*

- Architected and developed scalable internal systems using Node.js, TypeScript, and MongoDB, delivering critical data insights via Power BI that optimized financial decision-making for executive leadership.
- Engineered high-availability infrastructure for core business applications (ERP), achieving 99.9% uptime through proactive monitoring, automated contingency planning, and server hardening (Windows/Linux)./
- Implemented robust network security policies, including firewall rule management (VPNs, VLANs) and access controls, which reduced vulnerability exposure and ensured business continuity across hybrid environments.
- Led cybersecurity initiatives by establishing secure coding standards and integrating monitoring solutions, successfully mitigating risks and ensuring compliance with data protection regulations.

HBS Produtos para Saúde LTDA | Jan 2020 - Nov 2023 - *Systems Analyst & Technical Support (Freelancer)*

- Managed comprehensive IT infrastructure, including networks, servers, and security systems, resulting in improved system reliability and security.
- Implemented Firewall Rules and Network Security Policies (VLANs, VPNs) using Mikrotik and Linux-based solutions.
- Served as outsourced IT Manager, overseeing system stability and scalability for 220 clients, which led to enhanced client satisfaction and reduced downtime.

Instituto Estadual de Educação Profissional e Tecnológica - IEPTEC | Apr 2018 - Sep 2019 - *Systems Development*

Instructor

- Instructed students in Web, Mobile, and Desktop Programming, Data Structures, Databases, OOP, and Software Engineering, leading to improved student performance and readiness for industry roles.
- Developed and delivered practical and theoretical classes, preparing over 30 students for industry roles and project development.

EDUCATION

UCAM - Universidade Candido Mendes: Postgraduate Degree in Software Engineering and Architecture (Jan 2017 - Aug 2018).

UNOPAR - Universidade Norte do Paraná: Bachelor's Degree in Systems Analysis and Development (Jan 2013 - Dec 2015).

VIRTUS: Fundamentals of Smart Sensing Platforms for Industry (Jun 2025 - Aug 2025).

Desenvolvimento Web Full Stack: Integrated Technical Course in Computer Programming (May 2022 - Jul 2023).
